**UnderFence<sup>®</sup>**  
**RESIDENTIAL**

# BENEFITS AND FEATURES

## Benefits

- Prevents growth of grass and weeds under fence
- Provides an attractive, clean cut appearance
- Increase productivity by eliminating string trimming
- Maintain fence edging by simply mowing over the edge of the UnderFence®
- Protects fence from damage caused from mowers or trimmers
- Compatible with Aluminum/Ornamental, Vinyl, and Chain Link Fencing

## Features

- Made in the USA from recycled HDPE plastic
- HDPE plastic is known for its durability, eco-friendliness
- Does not contain BPA, heavy metals or allergens
- Resistant to weather, insects, pests and mold
- Material is enhanced with a UV stabilizer / inhibitor
- Width Options: 8", 12", and 16"
- Two panels per fence section

## FENCE TYPE COMPATIBILITY, WIDTH OPTIONS, & PRICING

### Fence Types and UnderFence® Compatibility

FENCE TYPE	ALUMINUM /ORNAMENTAL	VINYL	CHAIN LINK
FENCE POST SHAPE AND MEASUREMENTS	SQUARE 2" X 2" OR 2.5" X 2.5"	SQUARE 5" X 5"	CIRCLE 2" OR 2.5"
WIDTH OPTIONS	8", 12", OR 16"		
LENGTHS	<b>-VARIABLES DEPENDING ON FENCE TYPE AND LENGTH OF FENCE SECTIONS</b> <b>-2 MOW STRIP PANELS PER FENCE SECTION</b>		

### Estimation of Materials

- 2 panels per 6', 8', or 10' section of fencing
- Determine number of fence sections on project
- Multiply sections times two to determine panels required
- Plastic ribbed rivets (0.250" x .800") used to secure UnderFence® panels at fence posts (typically one rivet per panel)
